COTTON.—Unfortunate news from England		
increased some decline in this article.		

The arrival of goods at this place in 12 days less from New York, will, we think, in time, be no unusual thing. We last week received two boxes of books, only 12 or 13 days from New York, although they were unavoidably shipped some days in Georgetown.

Since the above was in type we have seen a letter from a gentleman in Wedderburn, to his agent in this town, from which we are permitted to make the following extract:

"I think we are about to commence a new era in our country's history. Some of our merchants have received goods by the new steam boat talents in six days from New York, arriving half a day in advance of the mail from George-

town. It should be remembered that these goods had been shipped from this place to Wedderburn, a distance of 25 miles.—Cotton Gazette."
